Internet Safety Policy
The Packer Collegiate Institute

Introduction
It is the policy of The Packer Collegiate Institute to:
   a) prevent user access over its computer network to, or transmission of, inappropriate material via Internet, electronic mail, or other forms of direct electronic communications;
   b) prevent unauthorized access and other unlawful online activity;
   c) prevent unauthorized online disclosure, use, or dissemination of personal identification information of minors; and
   d) comply with the Children’s Internet Protection Act [Pub. L. No. 106-554 and 47 USC 254(h)].

Definitions
Key terms are as defined in the Children’s Internet Protection Act.

Access to Inappropriate Material
   • To the extent practical, technology protection measures (or “Internet filters”) shall be used to block or filter Internet, or other forms of electronic communications, access to inappropriate information.
   • Specifically, as required by the Children’s Internet Protection Act, blocking shall be applied to visual depictions of material deemed obscene or child pornography, or to any material deemed harmful to minors.
   • Subject to staff supervision, technology protection measures may be disabled or, in the case of minors, minimized only for bona fide research or other lawful purposes. Although filters are in place restricting access to the types of sites Packer deems inappropriate, the software is not foolproof and users are to be guided by the objective of the policy, which is to use the resources respectfully and for educational purposes. Any action intended to disable, bypass or otherwise circumvent the filters is prohibited.
**Inappropriate Network Usage**

To the extent practical, steps shall be taken to promote the safety and security of users of The Packer Collegiate Institute’s online computer network when using electronic mail, chat rooms, instant messaging, and other forms of direct electronic communications.

Specifically, as required by the Children’s Internet Protection Act, prevention of inappropriate network usage includes: (a) unauthorized access, including so-called ‘hacking,’ and other unlawful activities; and (b) unauthorized disclosure, use, and dissemination of personal identification information regarding minors.

**Supervision and Monitoring**

It shall be the responsibility of all members of the The Packer Collegiate Institute staff to supervise and monitor usage of the online computer network and access to the Internet in accordance with this policy and the Children’s Internet protection Act.

**Definitions of CIPA terms:**

TECHNOLOGY PROTECTION MEASURE. The term “technology protection measure” means a specific technology that blocks or filters Internet access to visual depictions that are:

1. OBSCENE, as that term is defined in section 1460 of title 18, United States Code;
2. CHILD PORNOGRAPHY, as the term is defined in section 2256 of title 18, United States Code; or
3. Harmful to minors.

HARMFUL TO MINORS. The term “harmful to minors” means any picture, image, graphic image file, or other visual depiction that:

1. Taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
2. Depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact, actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and
3. Taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

SEXUAL ACT; SEXUAL CONTACT. The terms “sexual act” and “sexual contact” have the meanings given such terms in section 2246 of title 18, United States Code.

**Adoption**

The Trustees of The Packer Collegiate Institute adopted this Internet Safety Policy at a public meeting, following normal public notice, on Monday, January 28, 2013.

The Internet Safety Policy was shared with the school community at a public meeting on Internet safety, following normal public notice, on Wednesday, April 10th, 2013.
